Clean Air Act Proposed Approval of Title V Operating Permits Program Revisions; Santa Barbara County Air Pollution Control District, California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

Pollution Control District (Santa Barbara, SBCAPCD, or District). The District submitted this rule to EPA on August 11, 1997, and is scheduled to adopt this rule on September 18, 1997, for the purpose of allowing Department of Defense facilities to become exempt from title V of the Clean Air Act permit requirements, if the source implements an emission reduction plan that achieves a minimum reduction of 10 tons per year of ozone precursors. Amended Rule 1301 also identifies 9 stationary source designations for title V purposes that will apply to a DoD facility that implements an approved emission reduction plan. It also allows the exclusion of emissions from tactical support equipment and infrastructure building maintenance equipment from the emissions used to determine if an operating permit is required under District Regulation XIII and title V of the Clean Air Act.

This proposed rule will create federally-enforceable requirements for the emission reduction plan with specific project milestones for DoD facilities to meet. The actual emission reduction plan will also be submitted for incorporation into the SIP in a future rulemaking.

DATES: Comments on this proposed action must be received in writing by October 3, 1997.

ADDRESSES: Comments must be submitted to John Walser at EPA, AIR-3, 75 Hawthorne Street, San Francisco, CA 94105.
